## Electric Hydraulic Power Unit Specifications

### Model: IMI-100EHPU

#### Description \_\_\_\_\_ Specifications

Electric Motor _____	100 HP, 480 or 600 VAC 3 phase
Motor Starter _____	480 or 600 VAC
_____	110 VAC Control Transformer
_____	NEMA enclosure or EX, Class 1, Group D
Hydraulic Pump _____	Gear Tandem
Hydraulic Output _____	84 GPM to 1000PSI. 38 GPM to 2400PSI.
Hydraulic Filtration _____	10 Micron in tank
Hydraulic Tank Capacity _____	110 USG
Overall Length _____	94 inches
Overall Width _____	47 inches
Overall Height _____	71 inches
Weight (Dry) _____	4388 lbs.
Weight (Wet) _____	5220 lbs.

#### Other Features

- **DNC Engineered, ATEX , UL, CUL, CSA & EX**
- Complete explosion prof system
- Low hydraulic fluid level shut down
- High output hydraulic oil cooler
- Full sump containment
- Powder coated
- Hose and storage container
- Four certified lift points
- 4"x8" forklift tubes

#### Options

- Gear, vane or piston pumps
- On board transformer from 600 volt to 480 volt
- Flow control to vary speed of tongs
- Hose reels
- Tandem or single hydraulic system
- 50-75-100 HP Motors
